AI MEDICAL RECORD SUMMARY

The Clearest Path through Complexity

- **AI-powered**
- **Human-verified**
- **HIPAA-compliant**

www.1point1.com/clariva

The manual model is breaking under pressure.

Your record reviewers are working as hard as they can. The problem is not the people. It is the model.

Manual medical record review was designed for a world where cases were smaller, timelines were longer and volumes were manageable. That world no longer exists.

Today, a single personal injury case can run to thousands of pages: handwritten physician notes, non-standard forms from dozens of providers and billing records that span years. A complex workers' compensation claim can consume days of reviewer time before a single line of legal argument is drafted.

The pressure is coming from every direction. Clients want faster turnaround. Costs are rising. Accuracy cannot be compromised. And no one wants to hire the additional staff needed to keep pace with volume growth.

SOMETHING HAS TO CHANGE.

Three things are breaking simultaneously:

Turnaround time:
Cases are taking weeks when they should take hours

Quality consistency:
Human error rates of 5-12% on manual review create downstream risk

Scalability:
Every new client requires new headcount, new training and new bottlenecks

POINT

CLARIVA

One service. AI speed. Human accuracy. Zero compromise on compliance.

Clariva is not a replacement for medical expertise. It is what happens when 10+ years of our medical summary experience is combined with advanced AI and delivered through an infrastructure that never sleeps, never tires and never misses a page.

THE RESULT IS A MEDICAL RECORD SUMMARY SERVICE THAT DELIVERS:

95%+ AI accuracy,
rising to 100% with human-in-the-loop verification

End-to-end turnaround under 24 hours
for most file sizes

HIPAA-compliant delivery
with a full audit trail

1POINT™

CLARIVA

Four output formats.
One standard of accuracy.

STRUCTURED NARRATIVE SUMMARY

A chronological, provider-by-provider, event-based narrative, hyperlinked directly to source records. Available in forward or reverse chronology. Built for attorneys who need the complete story in a format ready for case preparation.

MEDICAL CHRONOLOGY

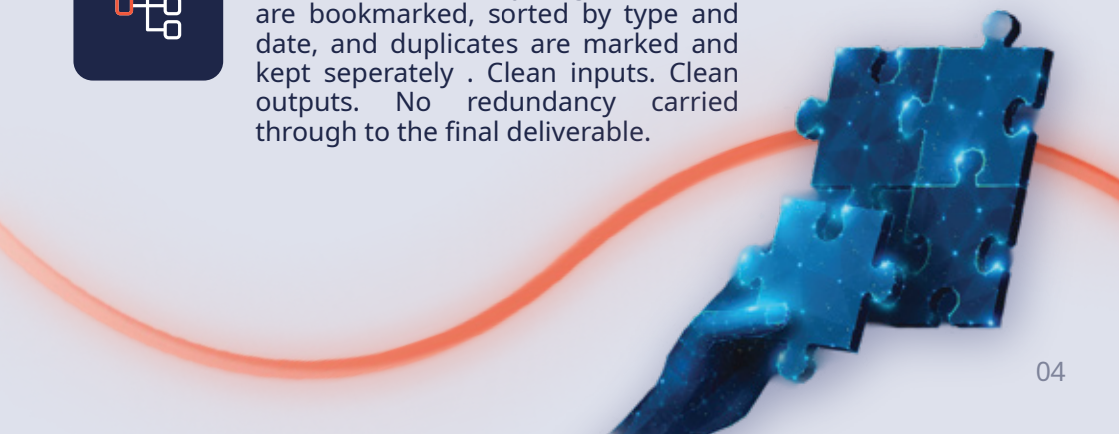
A full timeline of treatment events. Built specifically for personal injury, medical malpractice and workers' compensation: the practice areas where sequence of events is everything.

TABULAR AND BILLING SUMMARY

ICD and CPT codes, dates of service and charges organised in clean tables, aligned with the treatment timeline. Built for insurance reviewers and billing analysts who need structured data.

DEDUPLICATION AND ORGANISATION

Before the summary begins, records are bookmarked, sorted by type and date, and duplicates are marked and kept seperately . Clean inputs. Clean outputs. No redundancy carried through to the final deliverable.



POINT

CLARIVA

From upload to a litigation-ready summary in under 24 hours.

01

YOU SEND FILES

Upload your medical records via secure portal. Any volume, any format and any file size.

02

AI PROCESSING

Our AI reads, classifies, extracts and structures the records. Deduplication, chronology building and ICD/CPT coding are automated and precise.

03

HUMAN VERIFICATION

Experienced medical professionals review every AI output. Not a sample. Every file. 100% accuracy. Guaranteed.

04

STRUCTURED OUTPUT DELIVERED

You receive a hyperlinked, structured summary in your chosen format, whether narrative, tabular or chronology, delivered securely within 24 hours.

HIPAA-compliant by design.
Enterprise-grade by default.

Every record you send to Clariva is protected at every stage: at rest, in transit and in use. Our security infrastructure is built for organisations that cannot afford a breach.

DATA ENCRYPTION:

- AES-256 encryption at rest
- TLS 1.3 for data in transit
- Encryption enabled by default

ACCESS CONTROL:

- Sensitive Data Protection (SDP)
- Role-based access control (RBAC)
- Zero unauthorised access

AUDIT AND COMPLIANCE:

- Full audit trail for every file
- User-level action tracking
- Real-time anomaly detection
- Configurable retention and secure deletion

POINT

CLARIVA

Performance that speaks for itself.

95%+
AI ACCURACY
Rising to 100% with human verification

<24 HRS
TURNAROUND
End-to-end for most file sizes

10+ YEARS
EXPERTISE
Of medical summary expertise

100%
HUMAN REVIEW
Files reviewed by human medical professionals. Every time.

1POINT™

See how Clariva transforms the your medical records process your first case.

Experience it first hand. Share a sample medical record, and we'll create a complimentary Clariva summary so you can see the speed, structure, and accuracy for yourself
